

### Subsea Housings.

We specialise in the design and manufacture of subsea housings mostly for use with electronics. These have ranged from very shallow depths ratings 50 meters through to very deep depths rating 10'000 meters and everything in between. These have been in a wide range of sizes, shapes and materials.

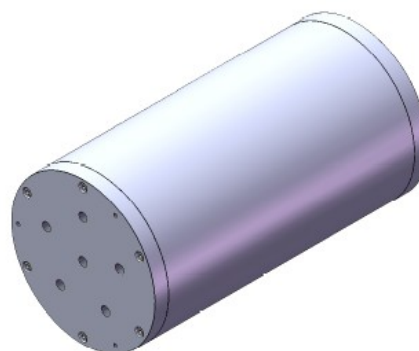

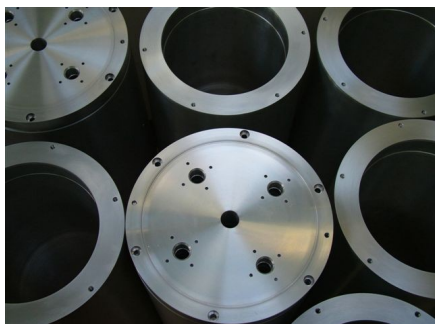

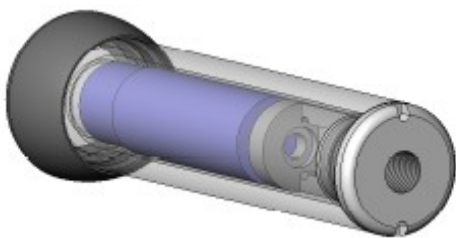

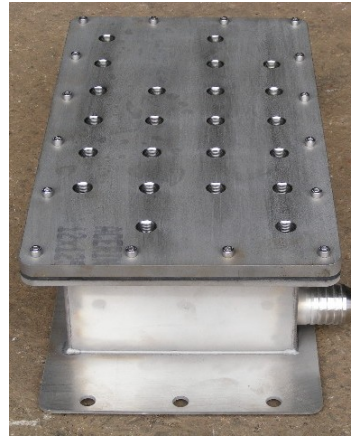

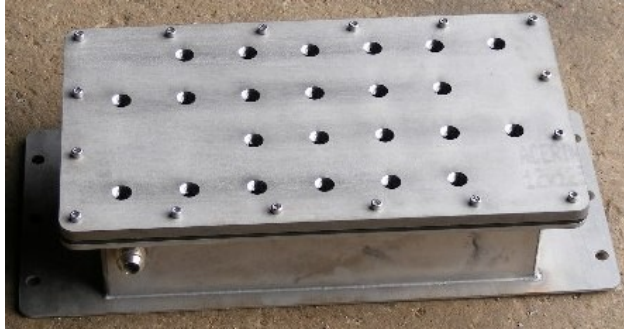

Titanium housing being machined.

From 20m/m diameter by 35m/m long right up to 300m/m Dia x 1.5 meters long and 460m/m Dia x 500m/m long.

In addition boxes of all shapes and sizes machined from solid or welded. We can also design and manufacture associated equipment to compliment any project. Please see other information leaflets or contact us directly.

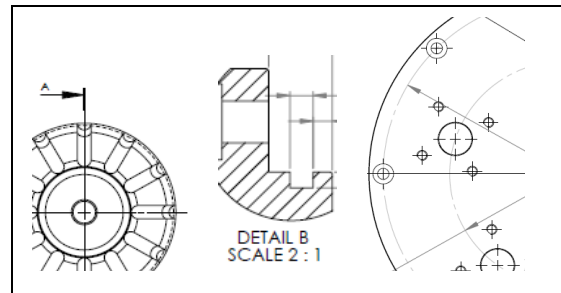

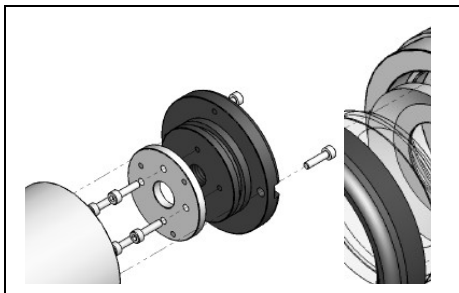

Stainless Steel Junction Box 500meter rated

Stainless Steel Control Pod 300m/m diameter 1.5 meters long 500 Meters rated

CAD Design, 3D models and Drawing.
